

The technical drawing illustrates the ECH 6000 pump assembly from two perspectives: a front view (top) and a side view (bottom). The front view shows a central motor unit with a width of 490 mm and a total height of 330 mm. It features a cooling fan with eight blades. A mounting bracket with two G1/2 ports is attached to the front. The side view shows the overall length of the assembly as 905 mm. Key dimensions include a 90 mm offset for the top mounting flange, a 130 mm distance between the mounting flanges, and a 199 mm distance from the bottom flange to the centerline. The side view also indicates a 255 mm distance from the bottom flange to the base of the motor housing.
