

MATERIAL SPECIFICATION

Manufacturer	: REDPOINT
Manufacturer's Specification	: Redpoint Thermalloy Heatsinks/Semiconductor Accessories ,1995
Manufacturer's Type Number	: 6079B
The material should conform to the specifications given in the above referenced documents. If the data in the above referenced documents no longer represent the current state of the material, the supplier should immediately inform ASELSAN of the situation and provide up to date information.	
The data given below is intended to provide the user a quick guide about the material. The complete material specifications are in the above referenced documents.	
Description	: Heatsink for TO-220 case
Thermal Resistance	: 21.0 °C/W
Heatsink Performance	: See Figure-1
Dimensions	: See Figure-2
